Your house:

The house in a classic-modern style, very lovingly furnished with its own small garden, a very beautiful and spacious terrace and a barbecue grill.

When the children are playing in the garden and you are sitting on the terrace and enjoy your glass of wine then you know you are part of the costa del sol.

The house has a large living and dining area of around 30m² and a large kitchen with storage room and a guest toilet. The kitchen could even be converted into an open American kitchen by opening the wall.

In the cold winter months you will probably sit on your couch and feeling well in front of a cozy fireplace.

On the upper floor there are 2 children's rooms with a small balcony and a master bedroom (16m²). The two children's rooms have their own bathroom in the hallway. The master bedroom has its own spacious modern bathroom (8m²) and a large balcony.

The attic, which is around 30m², has its own air conditioning and can be used wonderfully as an office or as an additional children's room (connections for setting up a bathroom are already available), library or something else. Not to forget the wonderful view from the roof terrace.

The house has a pre-installed air conditioning system (air conditioning and heat), a fireplace and even a small bodega under the house or the kitchen. This bodega is accessible from the outside and can be used wonderfully for storing wine or beverages.

Own well for irrigation and above all a large water tank of 50,000 liters in case of water shortage (Community)
